PREFACE

The report which follows is a compilation and analysis of selected data reported by North Carolina public libraries for the year July 1, 1992 through June 30, 1993.

All data is derived from tables generated using the the Public Library Statistical Database on the North Carolina Information Network. Public Libraries entered their 1992-93 data using the Statistics Data Entry Program. If a particular field is blank, it is because that library did not report data for that field. The statistical data entry program does not allow the input of any totals. (For instance TOTAL book volumes. The figure **must** be reported broken down by adult and juvenile collections.) If a library does not track these figures, they **may** have reported all their book volumes under either adult or juvenile volumes.

Recorded in the tables are output measures including some recommended by the Public Library Association: circulation per capita, program attendance per capita, registration as a percentage of population, and turnover rate. Formulas for determining these measures are shown in the footnotes to the tables.

The reported data is presented in five tables. Within the tables, libraries are grouped by type. (County, regional or municipal) Within each type, libraries are listed in descending order by service area population. This is done to facilitate comparisons with other libraries serving a similar size population. The service area population is shown in Table I. To locate the line number of a specific library in the tables, please refer to the guide which follows this introduction.

The Library Development Section always welcomes comments and suggestions. If you have suggestions about particular data elements, the tables, or this directory please contact any consultant in the Library Development Section.

N.B. On page 6, Table II, the figures for TOTAL BOOK VOLUMES are not derived from the statistical database. These figures are calculated by adding TOTAL CATALOGED VOLUMES and NUMBER OF UNCATALOGED VOLUMES.

DIRECTORY OF NORTH CAROLINA PUBLIC LIBRARIES

This directory is divided into two sections, Counties and Regions. The County section is arranged alphabetically by name of county. The Regional section is arranged alphabetically by name of region, and then by county within each region. Libraries listed in ALL CAPS are headquarters libraries and those listed in lower case beneath are branches or municipal libraries affiliated with that county or regional system. Independent municipal libraries (not affiliated with a county or regional system) are listed under the counties where they are located.
